ENCLOSURES

# Rediscover the pleasure of showering

The bathroom has changed... it is not just an area of functionality, but a room of pleasure and relaxation.

We want our bathroom to reflect our personal taste, adding colour and texture, creating that perfect space whether that be calm and relaxing or to wake-up and invigorate. Choosing our shower can be tricky, where will it go, what type of door, what type of tray... the list goes on. Kinedo offers a range of enclosures to suit every need, from folding back doors that offer maximum space, through to elegant quadrant or larger walk-in shower enclosures. Whatever space you have and whatever your taste, Kinedo has the answer.

The Kinedo range of shower enclosures offers pivot, sliding, bi-fold or saloon doors, along with a huge choice of walk-in options, in a variety of sizes, to suit all budgets. We also offer a contemporary collection of shower trays that you can team your enclosure with (see separate brochure).

Kinedo are known throughout Europe as one of the largest manufacturers of self-contained shower cubicles. Each product is designed, manufactured and tested in our production plant in France. This means we can innovate, design and test our ranges to ensure we reach the highest standards of quality and service. Our range of enclosures come with a warranty of up to 10 years.\*

We ensure that all our glass meets the European standard EN12150 for toughened safety glass and many of our enclosures are designed with ease of installation in mind, so rollers are often fitted already at the factory and screws in place to ensure the ease of fitting.

**ANTI-LIMESCALE**

Our range of enclosures comes with our anti-limescale treatment. This minimises the build up of calcium deposits and dirt on the glass reducing the need to clean.

**EASY ACCESS**

Our enclosures can be used with shower trays or with wet room designs depending on your needs.

Kinestyle

# Kinestyle

A modern, industrial look

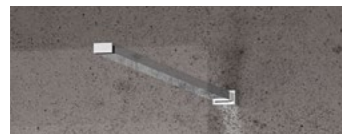

Our 8mm glass, 2 metre high range of enclosures comes with anti-limescale treatment as standard.

This premium range offers a modern take on the industrial look. With chrome profile and our sliding doors offering a visual chrome roller design, this range will look perfect in any modern style bathroom.

## Reinforcement bars

Articulated reinforcement bar

Straight reinforcement bar

Floor to ceiling reinforcement bar

Can be used with straight reinforcement bar to increase height

## Easy to clean

Anti-limescale treated glass comes as standard and flush hinges on pivot doors make the Kinestyle range easy to clean.

## Chrome effect door handles

Modern design handles complete the look.

## No threshold for ease of entry

Perfect for that wetroom effect or low profile tray.

## Modern designed industrial look rollers

Visible rollers on our sliding doors help to create a modern industrial feel.

## 8mm transparent glass

The Kinestyle range comes in 8mm transparent glass and is 2 metres in height.

## Solo

Glass walk-in panel with full length chrome profile and reinforcement bar for fixing, perfect for a wet room look.

Smart Design

# Smart Design

Innovative, sleek design.

This quick and easy to install enclosure has an attractive, sleek design and high quality, innovative fittings.

The Smart Design certainly lives up to its name. With thin profiles, slender handles and no visible screws, this enclosure range is as attractive as it is practical.

Its thoughtful design includes doors that can open both internally or externally, making it perfect for smaller spaces.

## Finishes

Two glass finishes are available (depending on the model)

- 1 Patterned glass
- 2 Transparent glass

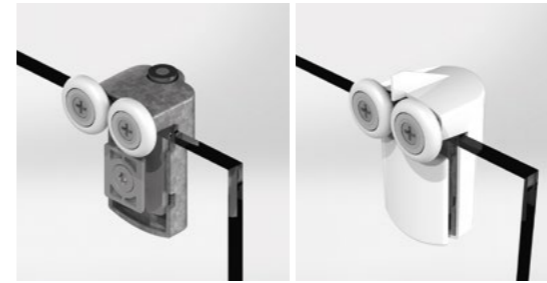

There are three profile finishes to choose from (depending on the model)

- 1 White aluminium
- 2 Chrome effect aluminium
- 3 Black aluminium

## Easy to install Easy assembly

- 1 Screw the profiles to the walls
- 2 Press the door into the profiles and adjust to the wall
- 3 Insert the nuts
- 4 Clip the finishing covers into place.

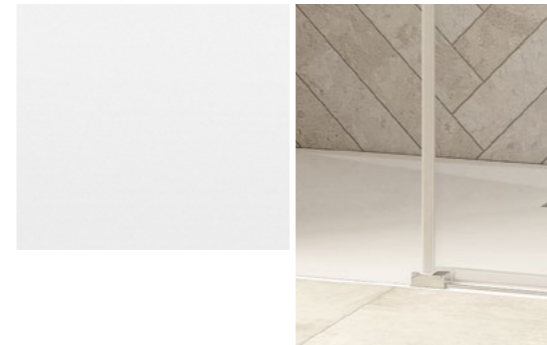

## Pre-assembled rollers

The sliding glass doors come with the rollers already attached, saving assembly time. Then just put the finishing covers in place.

## Quick and easy to adjust

No need to drill the profiles, the glass panel slides into the wall profile and is adjusted by the locking key, so it is easy to install and adjust then just add the cover strips to cover the nuts and ensure a sleek finish.

## Easy cleaning

For sliding door models, we have made sure that the sliding door no longer overlaps the glass panel, making it easier to clean. Even the magnetic strip is integrated into the profile for a smooth, neat finish.

## Smart Design Details

With thinner profiles, elegant handles, new profile colours and modern screen printed glass options, we have prioritised the design details.

Not only that... the handles, hinges, rollers and edges all match the profile colour. No silicone needed, just a joint serving as a locking key (for sizes over 1300mm)

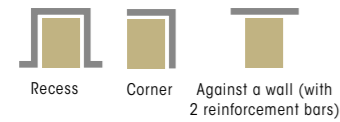

## Assembly of Smart Design wall profiles

For corner access models, the high horizontal profiles are cut at 45°, giving a neater finish.

# Smart Design Solo

Simple yet stylish glass panel for an open walk-in showering area.

**Installation**

- Available in 2 different heights
- Aluminium profile available in white, chrome or black finish
- Reinforcement bar in stainless steel available to match the chosen profile colour
- Reversible panel
- For use against a wall, 2 reinforcement bars are needed
- Available with transparent glass, with a middle band (Cosmos) or white patterned glass for the 2000mm height version. Available with transparent glass only for the 2250mm version
- Two different reinforcement bars available – straight or floor to ceiling. Available to match the profile colour chosen

Fit Smart Design to your space.

# Sanidoor

The Sanidoor is a split shower door giving complete freedom of design and total accessibility.

With smart white profiles, the doors can all be individually hinged to enable ease of use and can be fitted in pairs or with a side panel as shown. Whether fitting to a shower tray or in a wet room, the Sanidoor is a great idea for those of us that need a little more space when getting in and out of the shower.

EASY GRIP HANDLES

We want our bathrooms to be stylish and original, modern and attractive.  
A space to relax and unwind

To create a luxurious feel to your bathroom why not add texture and colour to give that stylish look.

Our range of trays has been developed to suit every style of bathroom, every size and every budget has also been taken into account.

Our cuttable trays can be sunken or raised, so you'll find the perfect tray for your shower in our Kinedo Trays brochure.

For a copy of our Trays Brochure please email [info@kinedo.co.uk](mailto:info@kinedo.co.uk).

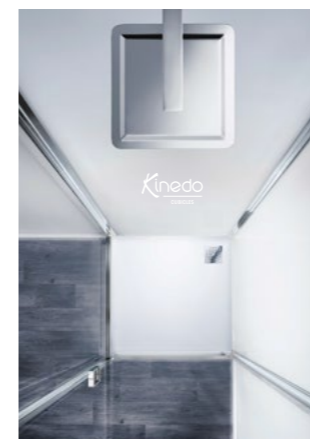

Sometimes to create that truly unique bathroom space a self-contained shower cubicle is all you need.

Our Kinedo shower cubicles offer swift and efficient showering solutions for any shape or size of bathroom.

Without the need for tiles or grouting in most cases you can have a watertight space with the shower, controls and doors all fitted and ready to enjoy in less than a day

For a copy of our Cubicles Brochure please email [info@kinedo.co.uk](mailto:info@kinedo.co.uk).

Alternatively, why not visit our website [kinedo.co.uk](http://kinedo.co.uk) to view our full range.
