

Serious about showers
Passionate about service

Kinedo showering solutions - to give you the edge

Kinedo

Global credentials Local service

Kinedo is proud to be part of the SFA Group. It means that our customers benefit from impressive technological and service know-how. A global presence in six continents and over 50 countries. More than sixty years of making and distributing world-class bathroom products. And passionate private ownership – so you know that quality and local service are always close to our heart. But that's just the start. See why our range of showering solutions give you the reassurance you need.

Did you know?

*Each Kinedo product is designed, manufactured and tested in one of our production plants in France or Italy. This means we can ensure we reach the highest standards of quality and service. Our products come with a 10-year warranty.**

*See website for full details.

4 Kinedo sites over 570,000ft²

The art of style The science of quality

Our innovation philosophy is straightforward. Shower equipment that looks great, lasts for ages, and saves time and frustration – requiring low or zero maintenance. Investing millions each year in R&D, we bring together experienced Kinedo engineers with innovative designers from all over the world – injecting fresh ideas into both design and production. And with over 50 different quality tests on every product, you have the ultimate reassurance of quality.

The perfect fit

The right size and style, to suit your build and budget

Whatever your project, Kinedo will help you discover the perfect solution – with a huge array of ideas to suit all development styles, spaces and build types. But more than that, we enjoy working with you, hearing your ideas so we can find new, bespoke ways to help your business stand apart.

Trays

From our white only Kinacity tray for entry level through to our cuttable textured range of trays available in 5 colours, that are perfect for any bathroom installation. But for a true designer finish why not look at our Kinediva tray available in 3 colours with its unique lateral flow waste.

Kinewall bathroom wall panels

Available in over 70 designs and at just 3mm thick, Kinewall panels are lightweight easy to install and to maintain. Easy to cut, simple and quick to install and completely watertight, Kinewall panels offer a great solution to designing a bathroom with less effort and expense than tiling.

Cubicles

We have something for everyone from our entrance level cubicle through to our assisted living range, there is an all-in-one solution that could make fitting a shower easy, save time and money and get tenants into a property quickly.

Walk-ins

With 9 ranges, 8 glass types and 9 profile finishes our range of walk-ins has something for everyone. For small spaces there are space saving walk-ins that can slide, bi-fold or pivot to create more space. For larger bathrooms you can choose your profile and glass type to make a real feature of your showering area.

Enclosures

With a range of pivot, sliding, bi-fold and saloon doors our enclosures can feature in any space no matter the size. From recess or corner installations through to our quads we have an enclosure to help you design the space you want.

Kineduo

The walk-in bath solution for assisted living, that takes nothing away from style especially for the rest of the family, our walk-in bath comes with a seat but is customisable to offer just a little bit of help to those that need it.

Modulo

The clever all-in-one en-suite solution to add extra facilities even in a small space. Perfect for HMOs and B&Bs.

Kinedo – Committed to CSR

Reuse and recycle

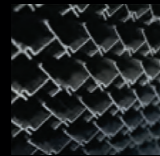

The SFA Group are dedicated to Corporate Social Responsibility and from 2016 have pushed forward with a campaign not only to adhere to regulatory compliance but also to deliver on our plans to make changes within our group for the environment. We looked at all of our factories and offices to make changes to our daily practices to deliver our ambitious CSR plans and respond to challenges in communication, HR and across the business as a whole.

Looking at our Aqua Production site in Nantes here are some of the actions we have taken:

Glass

An infinitely recyclable material. As a major element of our enclosure and cubicle manufacturing process, we optimise cutting and any waste is sent to a recycling centre.

Aluminium

We use this raw material in the manufacture of our enclosures, cubicles and bath screens. We optimise cutting to reduce offcuts and these are then sent to a recycling centre.

Water

We monitor and control the water consumption used in our processes, for example the water used in the process of glass machining (drilling and shaping) is reused several times, it is then purified. We ensure there is no polluted water discharged from the factory.

Energy

We are constantly looking at ways to reduce our energy consumption. From optimising processes, reducing waste, and using low consumption electrical equipment to name a few, this allows us to reduce our energy consumption per product manufactured. Another project we have completed is to ensure all our buildings have solar panels to help our energy consumption.

Logistics

We carefully choose our logistic partners based partly on their CSR commitments. We have a current project in place to gradually replace our service vehicles with electric vehicles.

Social

Improving working conditions plays a huge part in our plans. With numerous investments in robots and technologies to make work life easier. Stretching exercises are encouraged during the work day to help provide comfort for our teams in both the production plants and in offices.

Packaging

Our packaging is designed to protect our products and needs to be robust to prevent breakages during transportation. We limit the weight of packaging to reduce our carbon footprint. We are working in partnership with our packaging suppliers to increase the use of recycled materials.

Since 2021, SFA has committed to the United Nations Global Compact **corporate responsibility initiative and its principles** regarding human rights, labour, environment, and anti-corruption efforts.

Waste

We are constantly looking at ways to improve our organisation in order to limit the production of waste. We have a recycling policy and work with a service provider to recycle as much as possible.

Service that goes the extra mile Or millimetre

There's more to Kinedo than quality showering solutions. There's the genuine care we put into every step of your planning, installing and after-sales experience. It's why we have our own in-house customer service team – expertly trained to help with identifying the best product, coordinating deliveries and providing the right level of after-sales care.

From ready supplies to on-site training, we know what makes a difference to your project...

National coverage

Whether it's sales advice, technical guidance or after-sales support, we're with you right across the UK.

Pricing solutions

Whatever your project, we can advise on the most suitable products – from social housing, student accommodation and housing developments to hotels or luxury holiday homes.

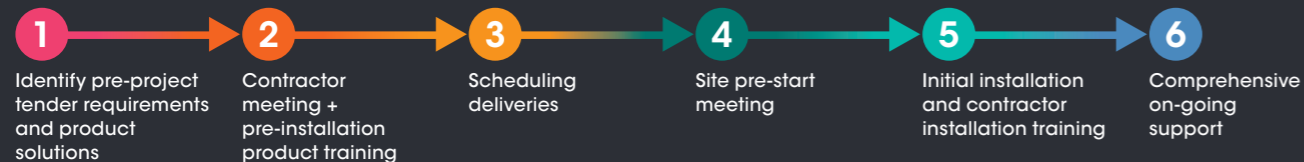

Specialist installation

For the fastest, quality-guaranteed service, our experienced team are on-hand. With full peace of mind as part of the deal.

Training your installers

Our products are designed for quick and easy installation. We can train your fitters to ensure perfect results every time. No snagging or maintenance.

How we bring it together

Project management support

Adding value where you need it most

Kinedo experts are ready to help in more ways than you can imagine – offering an end-to-end service from on-site support, to design, marketing and tailored solutions. Whatever level of involvement you need – before and after your project – we work with you so you benefit from our speed, experience and cost-efficiency.

Design expertise

Show us your plans and we'll recommend a smart design solution based on your brief and budget.

Your team support

Your personal contact gives you the support of our whole business – coordinating our teams with your teams.

Marketing and after-sales support

From images to specs, manuals and product sheets, we'll supply whatever you need to make the project go smoothly.

UK service and technical expertise

Our entire customer service team is based in the UK. This means you receive knowledgeable support from local experts who understand your needs and concerns.

Exceptional After-Sales Support

At Kinedo, we pride ourselves on delivering outstanding after-sales support to ensure your complete satisfaction.

Quick Response Time

Our dedicated customer service team answers your calls in an average of just four seconds. We understand your time is valuable and are here to assist you promptly.

Multichannel Support

Whether you prefer to contact us via phone, email, or website, our friendly and professional team is ready to help. We're committed to resolving your queries efficiently and effectively.

Personalised Aftercare

We don't just solve your problems; we follow up to ensure everything is perfect. Our personalised aftercare service guarantees that you are delighted with our solutions.

Top-Rated Service

Our commitment to excellence has earned us top ratings in customer satisfaction. We continuously strive to exceed your expectations and deliver the highest quality service.

- **98% First Call Resolution:** We resolve 98% of customer enquiries on the first call, ensuring you get the help you need without unnecessary delays.
- **Customer Satisfaction Rating:** We maintain a 95% customer satisfaction rating, reflecting our commitment to delivering exceptional service.

Trust and Reliability

With years of experience and a proven track record, you can trust Kinedo to provide reliable and effective after-sales support.

Experience the difference with Kinedo's top-tier after-sales service. We're here to support you every step of the way.

Results that speak volumes

CASE STUDY 1

TUSTIN DEVELOPMENTS

Who: Tustin Developments property developers.

What: Kinedo Eden Shower cubicles.

Why: To develop a former tax office into luxury apartments. The office block had been empty for 5 years and with the need for new housing in the seaside town of Lytham St Annes the project was undertaken to create welcoming new homes from an old unused building.

Without hesitation I would say any builder, developer, plumber or building manufacturer should consider Kinedo. The benefits on-site are immense.

The team of plumbers have said how straightforward the whole installation process is, they look great and are easy to clean and maintain. From the early initial enquiry through to completion, the support has been quite exceptional.

Andrew Roberts, Managing Director

CASE STUDY 2

NEWBOLD COLLEGE

Who: Privately owned further education establishment, Newbold College, sits in central Bracknell in Berkshire and boasts a beautiful listed building, situated in acres of landscaped grounds. The college plays host to students from across the world who pay to study and stay at the college.

What: Kinedo Horizon cubicles.

Why: As part of an upgrade to its facilities the college worked with Saniflo to specify shower cubicles from its Kinedo range and pumps from the Saniflo range for its refurbished bathrooms.

The Horizons are very straightforward to install and maintenance is also simple. They feature Cristal Plus coating for easy cleaning which helps them to stay looking good for longer. Our students are happy and we are happy.

Ian Clark, Site Engineer

CASE STUDY 3

FERNBROOK BUILDERS

Who: Fernbrook Builders – an independently run, family firm that undertakes commercial and domestic building projects throughout the East Midlands.

What: Kinedo enclosure for a bijou development.

Why: Luxury bathrooms were a key aspect of the new houses. Kinedo had the ideal solution to provide a modern, stylish shower enclosure that was quick and easy to install.

“The unit goes together very quickly and was sufficiently light for me to assemble on my own. The bottom rollers make for a very smooth sliding action and the concealed fittings meant the finish is very neat. Our customers were really pleased.”

Mark Edwards, On-Site Plumber

CASE STUDY 4

AMR GROUP

Who: AMR Group – one of the leading providers of electrical, mechanical, plumbing & heating, fire & security, air conditioning & refrigeration services throughout East Anglia.

What: Kineprime Glass cubicles.

Why: Waterbeach Barracks in Cambridge, one of the first decommissioned military sites in the country, was redeveloped to provide affordable accommodation blocks for the NHS to rent to key workers, including doctors and nurses.

“The units were specified by the architect on the job, so we ordered them as we needed them from Wolseley plumbers merchants and worked on the first installation with a member of the team from Saniflo. This was invaluable and anything we have needed since has been sorted very efficiently.”

Our fitters were very happy with the simplicity of fitting and we would definitely consider these units for future projects.

Chris Lown, Director

CASE STUDY 5

MRC MODULAR

Who: MRC Modular – manufacturers of high-quality, modular buildings such as classrooms and sports facilities, and more recently, log cabins for Woodlakes Holiday Park.

What: Kinedo Kineprime cubicle.

Why: They were impressed by the concept of an integrated cubicle, that is quick and efficient to install, as well as the premium aesthetic of the unit. A single day of installation training brought their team up to speed.

“We’re very happy with the quality of the finished product; they not only look good but they are very practical for us.”

I am also greatly impressed by the team. They came on-site to demonstrate, then returned to train our team – and there is always support available on request. We are now looking to install Kinedo shower cubicles in our house refurbishment projects.

Andy Lancaster, General Manager

CASE STUDY 6

MODULAR BUILDINGS

Who: Modular Building Group – manufacturer of precision made lodges, pods and ensuite blocks.

What: Kinedo Horizon Shower cubicles.

Why: Developing luxury glamping lodges and pods using Structural Insulated panels makes them thermally efficient for all year round use, however making the interior as glamorous is very important. The bathroom is no exception and the Kinedo cubicles help to maintain the luxury finish throughout.

“We have to provide a certain level of luxury and Kinedo ticks the box perfectly. We love the design, but even more impressive is the speed of installation.”

The fact the cubicles can be fitted in a couple of hours has cut overall production time. And we’ve had a great response from our customers.”

Ian Alderson and Chris Hill, Owners

Accreditations and warranty

Kinedo products have a 10-year warranty. For full warranty information please see our website kinedo.co.uk

We ensure that all our glass meets the European standard EN12150 for toughened safety glass.
