

Kinedo

TRAYS

Rediscover the pleasure of showering

The bathroom has changed... it is not just an area of functionality, but a room of pleasure and relaxation.

We want to be stylish and original, modern and attractive. None more so than with our shower, a place for calm reflection or vibrant invigoration. Designing your bathroom needs to be specific for your needs, from a wetroom design with sunken tray for easy access, through to limited space ideas or bath replacement for a walk-in shower – Kinedo has the answer for you.

The Kinedo collection of shower trays offers a range of surfaces, colours, sizes and cuttable options for every scenario. From our luxurious granite linear tray through to our moonstone textured tray there is an option designed for you. We also have a range of enclosures and bathroom wall panels to complement our trays and create your perfect showering space.

Kinedo by the experts at Saniflo are known in the UK for their range of self-contained shower cubicles. Each product is designed, manufactured and tested in our production plants in France and Italy. This means we can innovate, design and test our ranges to ensure we reach the highest standards of quality and service. All our Kinedo showering products come with a warranty* of up to 10 years.

CUTTABLE

Our trays can be cut to allow you to create the perfect showering space. From uneven walls, to boxed pipework our cuttable trays are fit for anywhere.

COLOURS

We offer a range of colours to suit your bathroom, from white, black, grey, sable and anthracite there are several options for your shower tray.

MATERIAL

Our tray ranges are made from Biolex. An innovative material, Biolex is a mineral composite. It is made up of mineral (80%), acrylic resin and gel coat surface. This unique finish not only looks good but is also robust and resistant to damage.

GRIP

All our trays are PN24** rated so are safe for the whole family.

Kinedo shower trays

SFA Group purchased Format, an Italian tray manufacturing company, in 2020.

Format started in 2007, combining traditional craftsmanship, knowledge of materials, resins and composites with new technologies and modern materials.

The craftsmanship of the trays and quality of products is easy to see. The edge finishing process performed manually, according to the texture of the tray, is one of the exclusive elements that characterises and distinguishes our shower trays from other products currently available on the market.

Kinedo pays particular attention to the environment, manufacturing products directly from raw materials, meaning products have a natural touch, but also using recyclable packaging, recovering waste and filtering and recovering solvents. We are creating products that have a low environmental impact and that seamlessly bring together individual needs, whilst managing the social requirements of our environment.

Format production site specialising in shower trays.

Based at: **San Paolo di Piave (TV)**

- **7,000 m²**
- **Two production sites**
- **80 employees**
